PROFILE

Frontend Developer with 9+ years of experience building scalable, high-performance web applications and user interfaces. Experienced in React.js, Next.js, Angular, TypeScript, and JavaScript, with a strong background in REST APIs, state management, and responsive UI design. Experienced in startup and enterprise projects, using AI-assisted development tools such as OpenAI Codex, Cursor, and Claude Code to accelerate feature development, debugging, refactoring, and code optimization.

WORK EXPERIENCE

BlackFin Technology
JAN 2018 – SEP 2026

Frontend Developer

Worked on multiple startup and enterprise web applications using React.js, Next.js, Angular, TypeScript, JavaScript (ES6+) and modern frontend tooling.

- MotorShare
  - Developed public-facing rental features using React.js, Next.js, Firebase, and SASS.
  - Built a kiosk-based check-in system for customers to access their booked vehicles.
  - Implemented rental workflows including terms acceptance, licence verification, payment details, and vehicle collection.
  - Developed responsive and reusable UI components for customer-facing experiences.
- Partbnb Web Application
  - Developed public-facing and admin interfaces using Angular 8+, TypeScript, Material UI, and SASS
  - Implemented server-side rendering, REST API integration, and analytics tracking
  - Collaborated in a 4-member team (2 frontend, 2 backend) using Git workflow
- LifeDirect
  - Built frontend with React.js (Hooks, Context API), TypeScript, REST APIs, and Node.js
  - Focused on dynamic dashboards, policy comparison interfaces, and responsive design
- Little Ones Admin Panel
  - Developed admin dashboard with React.js, Next.js, Tailwind CSS, and Firebase
  - Built reusable components and state management for efficient data handling
- PennyCRM
  - Frontend development using React.js, TypeScript, Redux, Redux Toolkit, RTK Query, and Tailwind CSS
  - Designed UI components and API integrations to enhance CRM functionality
- MRE Blackfin Tools
  - Built dashboards and reporting interfaces using React.js, Next.js, TailwindCSS, Redux Toolkit, and charts
  - Optimized performance and implemented modular, maintainable code

Dev Partners Philippines
Jul 2017 – Jan 2018

Frontend Developer / Trainee

- Developed internal systems, employee portals, and client websites using AngularJS, Bootstrap, HTML, SASS, JavaScript (ES6+), Node.js, and REST APIs
- Contributed to a dating app project using WordPress
- Worked on LoanMarket CRM web app, collaborating in an agile environment

Segworks Technologies Corporation
May 2017 - Jun 2017

Website Developer (Internship)

- Fixed bugs and provided tech support for Hospital Information System
- Tech stack: HTML, CSS, JavaScript, PHP, MySQL, Git Workflow
